

MANU VISHWAKARMA

Civil Engineer | Construction Technology & Management

7415320200 | ✉ manuvishwakarma03@gmail.com | Chourai, Chhindwara, Bhopal (M.P)

Professional Summary

Enthusiastic and detail-oriented Civil Engineer with hands-on experience in site execution, structural analysis, and project coordination. Adept at ensuring quality control, safety compliance, and efficient project delivery. Passionate about leveraging engineering expertise to optimize construction processes and contribute to organizational growth.

Key Skills

- ✓ Site Execution & Supervision
- ✓ Structural Analysis & Design
- ✓ Project Planning & Coordination
- ✓ Quantity Estimation & Cost Analysis
- ✓ AutoCAD & Technical Drawing Interpretation
- ✓ Quality & Safety Compliance
- ✓ Report Documentation & BOQ Analysis
- ✓ Labor & Material Management

Education

- M.Tech (Construction Technology & Management) – RGPV Bhopal, Pursuing (2024) | CGPA 8.1 (1st year)
- B.Tech (Civil Engineering) – RGPV Bhopal, 2023 | CGPA: 7.74
- ITI (Surveyor) – NCVT, 2018 | 76.1%
- DCA (Diploma in Computer Applications) – MCU Bhopal, 2019 | 65.71%
- 12th – MP Board, 2017 | 63.4%
- 10th – MP Board, 2015 | 71.16%

Work Experience & Internships

Site Engineer – IES group , Bhopal (Aug 2025-Jan 2026)

Civil Engineering Training (3 Internships Completed)

A highly motivated Civil Engineer with 6 months of hands-on experience in building construction projects Bhopal, specializing in site supervision , structural analysis, material management, and project execution. Completed three internships in diverse construction sectors:

- **M/S Patel Construction** – construction of office building in Sharda Open Mine, junnardeo
- **Siddique construction** – constructing a cc road for society.Chhindwara

Technical Proficiency

Proficient in AutoCAD with expertise in construction technology, quality control, and cost estimation. Currently pursuing a Master's in Construction Technology and Management, with a strong focus on data-driven decision- making in construction. Passionate about sustainable construction practices and innovative engineering solutions.

Technical Skills

- AutoCAD, MS Office (Excel, Word, PowerPoint)
- Construction Methods: Concreting, Reinforcement, Shuttering, Finishing Works
- Project Documentation: Quantity Estimation, BOQ Analysis, Site Reports

Project

Publish Research Peper In IJRAR (International Journal Of Research And Analytical Reviews)
On The **Soil Stabilization Using waste fiber materials and waste crushed tyre rubber**

Declaration

I hereby declare that the above information is true and correct to the best of my knowledge.
